

REMARKS

The applicant thanks the examiner for the interview of March 22, 2006.

The invention relates to video sharing, and more particularly to techniques for sharing video segments through an automated, network-accessible server. The claims as amended are believed to be readily distinguishable from the prior art of record, and reconsideration of the previous rejections is respectfully requested.

Conclusion

The claims currently pending in this case, as amended above, are believed to be in condition for allowance. The applicant therefore requests that the examiner withdraw any outstanding objections and rejections and issue a notice of allowability for all pending claims.

Respectfully submitted
STRATEGIC PATENTS, P.C.
